Greece Representative

EIT RawMaterials Greece Representative

Who we are | What we offer

Co-funded by the
European Union

EIT RawMaterials Greece Representative

The official national contact point for EIT RawMaterials.

Established in 2017 and operated by the School of Mining and Metallurgical Engineering (NTUA), we connect academia, industry, and governance with European opportunities, driving innovation and growth across the raw materials value chain.

Our Vision

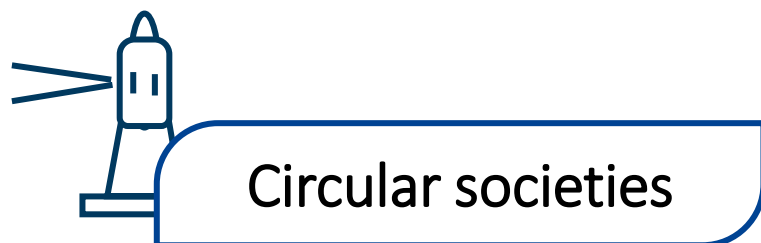

A resilient and sustainable raw materials sector where Greece plays a leading role in European innovation
